

How to build and maintain healthy relationships

Healthy relationships are an essential component to maintaining your mental health

COMMUNICATION

- Have the talk
- Open up the lines of communication
- Try to be direct about your situation and needs

FOCUS ON POSITIVES

- Avoid negative relationships and behavior
- Surround yourself with a core group that you can rely on

BE MINDFUL

- Be aware that others may not know of or understand your illness
- Know that you are not a burden on others

SET GOALS

- Having goals to work toward will build trust and keep you motivated to move forward
- Create opportunities to strengthen your existing relationships and build new ones

SELF-CARE

- Be committed to your self-care
- Use the resources available to you (EAP, medical professionals)
